Mr. Paulo Rodriguez

Founder/CEO
Aquila Softwares Corporation
Lot 7 Blk 9 Marble St.
Gallera De Oro
Bago Aplaya, Talomo District
Davao City, Davao del Sur, Philippines, 8000

Dear Mr. Rodriguez,

Greetings!

I am writing to express my interest in the Software Engineer position at Aquila Softwares Corporation, which I learned about through your recent job posting. Having previously interned at Aquila, I experienced firsthand the collaborative and growth-driven work environment, one I truly admired and hoped to return to as a full-time employee. Your company's commitment to digital innovation and transformative solutions strongly aligns with my career goals, and I am eager to apply my technical expertise and passion for software development to your team.

Throughout my academic journey, I have had the opportunity to work on several systems and applications, including a POS system using Java, a web development project using HTML and PHP, a mobile application built with Flutter, and a full-featured POS system using Laravel and MySQL. These experiences have strengthened my skills in HTML, CSS, JavaScript, PHP, Python, C++, Laravel, MySQL, and modern development practices.

I am confident that my technical background, problem-solving mindset, and eagerness to learn make me a strong candidate for the Software Engineer position. More importantly, my positive experience during my internship motivates me to contribute meaningfully to Aquila Softwares Corporation's ongoing success.

I would greatly appreciate the opportunity to discuss how my skills and experiences align with your team's needs. I have attached my resume for your review and am available for an interview at your convenience.

Thank you very much for your time and consideration. I look forward to the possibility of rejoining your organization and contributing to its future growth.

Sincerely,

Lorenzo Balagat III
